AND POLLUTION PREVENTION

MR. NATHAN EHRESMAN
PRIME SOURCE, A DIVISION OF ALBAUGH LLC
1525 NE 36TH STREET
ANKENY, IA 50021-

Dear Mr. Ehresman:

Subject: Change of Name and Ownership of Company Number **89442**

Pursuant to your letter and agreement of December 31, 2020 we have approved the change in name and ownership of EPA company number 89442 from PRIME SOURCE, LLC to:

MR. NATHAN EHRESMAN
PRIME SOURCE, A DIVISION OF ALBAUGH LLC
1525 NE 36TH STREET
ANKENY, IA 50021-

The effective date of this change is the date of this letter.

You may continue to sell and distribute existing product stocks, bearing the transferor's label, for 18 months from the date of this letter. Per your request for an 18-month transition period, you may also continue to produce new product bearing the transferor's existing, previously approved label, and sell and distribute that new product, for 18 months after the date of this letter, but you may not sell and distribute product bearing the transferor's label after that 18-month period. Each product container or package bearing the transferor's label that is sold or distributed after the effective date of this product registration transfer must be clearly and accurately marked with the batch number, lot number, or other descriptive designation used to identify the product in your records.

Supplemental distribution agreements of registered products do not transfer with the Section 3 registration. It is your responsibility as the registrant to notify all supplemental distributors of the transferred product(s) of this transfer agreement. If you wish to enter into supplemental distribution agreements of your product(s) under this new registration, the form "Notice of Supplemental Distribution of a Registered Pesticide Product," EPA Form 8570-5, must be submitted to the Agency for each supplemental distributorship.

You are required to contact your local EPA Regional Office to determine what effect this transfer of pesticide registrations has on the pesticide production establishment registration.

It will not be necessary to submit labeling for review if the only changes are in the company designation and the EPA Registration Number. Other changes in the product and/or labeling may require EPA review and approval prior to initiation. In any correspondence on these products always refer to the U.S. EPA Registration Number listed above.

The transferred registration will have the same status under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, 7 USC 136 et seq., as it had prior to the approval of this transfer.

When registrations are transferred from one company to a second company, all restrictions, data requirements, conditions (suspensions), and deadlines existing on the registrations are transferred with the registrations. The new company is responsible for adhering to or complying with all such restrictions, etc. on the acquired products.

Regarding deadlines, the transferee company is responsible for submitting all required data according to the schedules already established for the acquired products. Failure to do so will result in the issuance of a Notice of Intent to Suspend. Requests from transferee companies for additional time to submit, because they acquired the registration(s) after the 3(c)(2)(B) request was issued will not be granted. If a transferee company has other valid reasons for delays in the testing which were clearly outside of their control, then such requests for time extensions will be considered in accordance with the established procedures. Transfers occurring while a 3(c)(2)(B) request is being issued or during the 90-day response time are subject to the same conditions expressed above.

Registration is in no way to be construed as an endorsement or approval of these products by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with FIFRA.

Furthermore, the transfer of the subject registrations is approved under the condition that the annual maintenance fee obligation has been fully satisfied. The marginal maintenance fee is determined based solely on the total number of active section 3 and section 24(c) registrations held by the transferor. If the annual maintenance fee has not been fully satisfied, the transferee and transferor will be notified to comply within a specified time period, or the affected registrations may be canceled.

By copy of this letter we are informing the transferor of these changes. If you have any questions about this transfer approval, please send all inquiries to: companyownershipchanges@epa.gov.

Sincerely,

Kimberly Smith, Chief

Re: PRIME SOURCE, LLC (89442)
Transfer of EPA Company Number to
PRIME SOURCE, A Division of Albaugh, LLC

Dear Mr. Vaughn

PRIME SOURCE, LLC [89442] requests that the U.S. Environmental Protection Agency transfer certain EPA registered products **PRIME SOURCE, A Division of Albaugh, LLC**.

A Transfer Document, executed by authorized representatives of both parties, provides the required documentation and affirmations delineated at 40 CFR §152.135(b) and (c) to effect this request for transfer of EPA product registrations. The Transfer Document is enclosed with this letter.

In support of the sale of the products and the registrations from **PRIME SOURCE, LLC** to **PRIME SOURCE, A Division of Albaugh, LLC**, the sale agreement provides a transition period of eighteen months after EPA's approval of the transfer of the registrations and corresponding product labels. **PRIME SOURCE, LLC** provides the licenses and other necessary rights to use the company name and logo during the transition period. This allows for the continuation of production during this period with seamless transition of the product registrations while maintaining supply of the product to customers. During the transition period, transferee completes internal activities to ensure manufacturing and supply processes are established to produce product bearing **PRIME SOURCE, A Division of Albaugh, LLC** registered label upon obtaining the necessary state registrations. In addition, the sales agreement provides, as necessary, transitional services including regulatory, manufacturing, supply, and product services (e.g., call center) support for this transitional period.

Consistent with the sale agreement explained above for the registered products subject to this transfer, **PRIME SOURCE, LLC** requests that EPA allow the labels which currently appear on **PRIME SOURCE, LLC** product to continue to be used up to 18 months after the effective date of the transfer.

Under the terms of 40 CFR §152.135(d), I understand that the Agency will approve the transfer without requiring that the Transferee obtain new registrations and that the Agency will notify the Transferor and the Transferee of its approval of this transfer request.

Please do not hesitate to contact me directly with any questions.

Regards,

Nathan P. Ehresman
Regulatory Agent for Prime Source, LLC

EPA Reg. No. 89442-024

Dear Ms. Herrick,

The enclosed submission consists of proposed Alternate CSFs #5-7 for the above referenced product. The purpose of the submission is to allow for the use of additional Albaugh registered technical source. Some inerts supplier names were changed to "commodity" as they are approved in the commodity list. The amount of diluent has been adjusted to accommodate slight variation in the technical purity. No other changes were made.

Please note that the required certification statement with regard to PR Notice 98-10 is detailed on EPA Form 8570-1, submitted concurrently with this letter.

Please don't hesitate to contact me if you have any questions.
